

Most Popular Genres

As we can see; Rock is the most popular genre of tracks that have 835 orders compared with the other genres, as the second place Latin has 386 orders, it not even close to Rock.

We can also notice that the first four genres have most orders compared with all other genres.

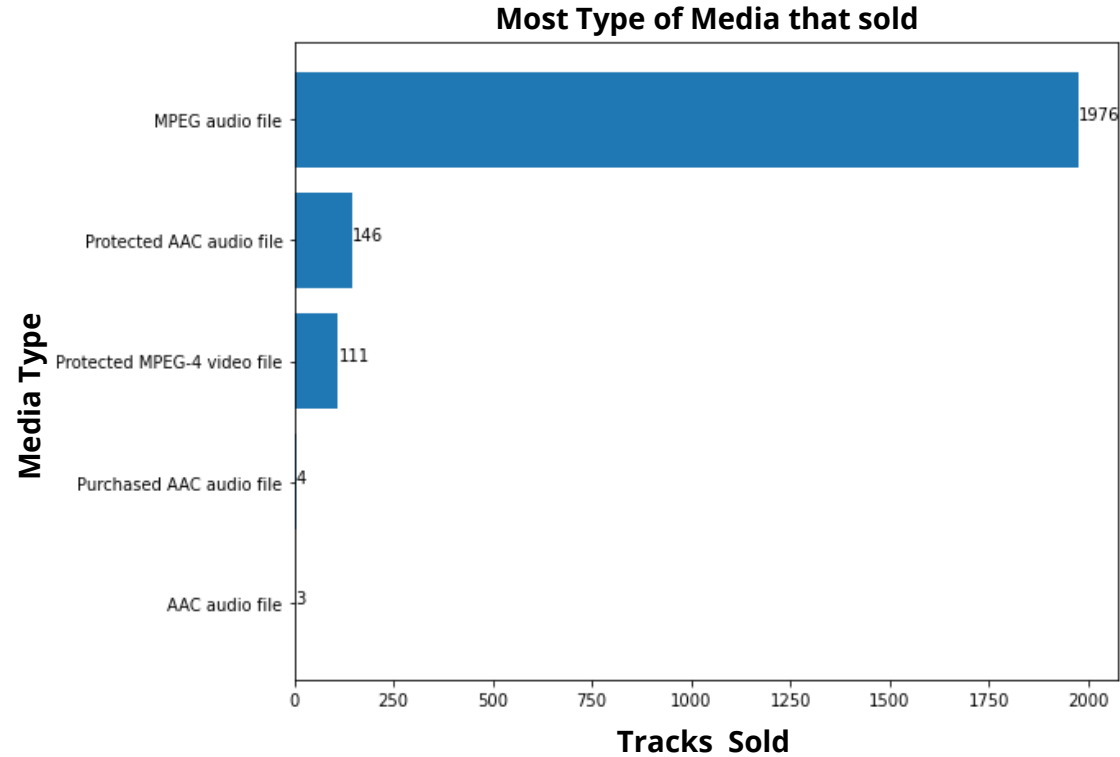

Most Popular Albums

The 10 most albums that have most tracks sold; top of these albums is Minha Historia album with 27 track sold.

The difference is small in the number of tracks sold on each album compared to another, so the sales don't depend on a particular album.

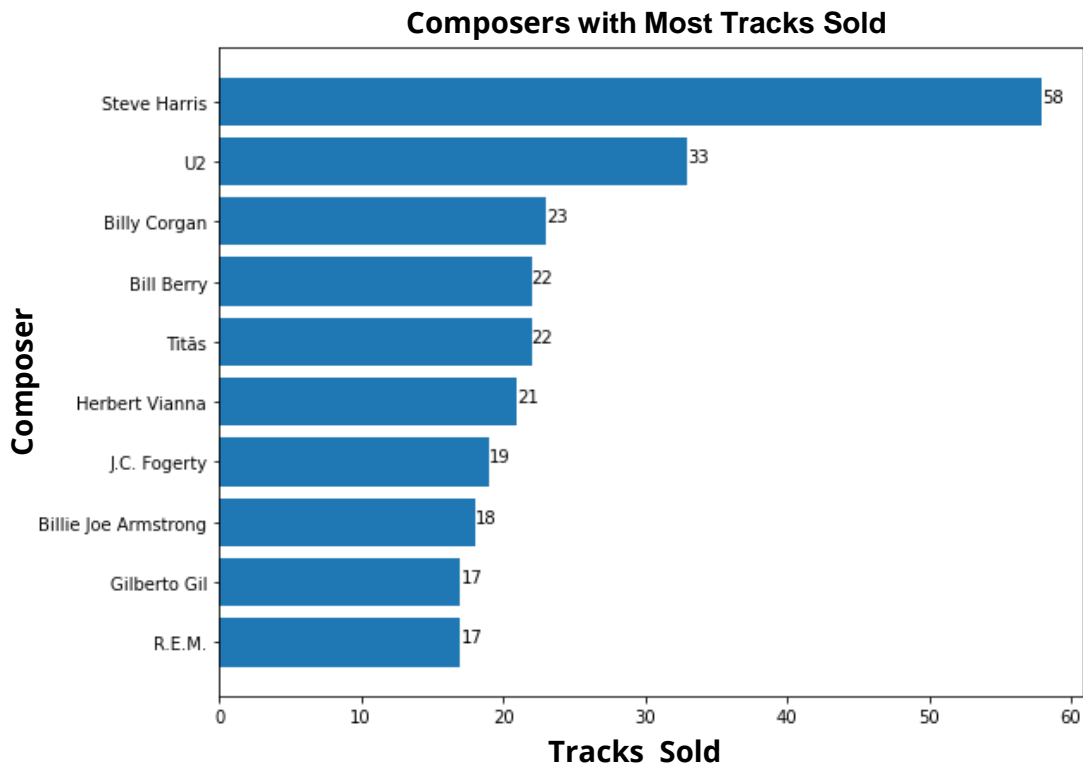

Media Type Sold

Most type of media that sold is MPEG audio with 1976 tracks sold!

Then we can see protected AAC audio and MPEG-4 video with 146 and 111, compared with MPEG audio type; the difference is very large.

Composers with Most Tracks Sold

Here, Steve Harris is a composer with most tracks sold with 58 tracks then U2 with 33 tracks.

We can see that after first two composers the difference is small in the number of tracks sold for each composer compared to another.
